REF. L./5. (a)

The Deputy Secretary to the Govt.,
Public Works Department,
Bombay.

Sir,

We beg to report that Mr. V. D. Mamat applied to us for giving him electric supply for lighting and fans at his new shop in Durgadbail in substitution of supply which had been provided to him at another shop in Durgadbail and that supply has been accordingly provided to him at his new shop which had been disconnected due to vacating of the premises by the previous tenant. We have satisfied ourselves that no new electrical equipment has been obtained for the purpose.

Yours faithfully,
for The Hubli Electricity Co.Ltd.,

Managing Agents.

Inwd. No. 2580
28 JUL 1942
File No. Genl
P. W. D., BOMBAY

.I.E.E.,J.P.

D.O.No.1412
P.W.D.Secretariat, Fort,
Bombay, 28th July 1942.

Dear Advani,

Further to my letter of the 24th instant, I have now received a complete report on the situation at Hubli with regard to the supply to the Blanket Factory.

The Factory is situated about half a mile from the sub-station; the mains already existing were within 4 poles' distance from the Factory, the remaining 4 poles being fixed by the Supply Company in accordance with the reference made to them on the 22nd November 1941, and the requisition sent to them for the required supply on the 23rd March 1942. It would also appear from the report of your Wool Expert at Hubli, dated the 19th July 1942, that the Association agreed to pay 5% interest on the capital outlay of Rs.1,000/-, being the amount required for laying the service. It is now reported that the mains from the sub-station to the position where the service to the Factory takes off are only No.6 S.W.G.; it is not possible to connect on to these mains the load required, without strengthening them; otherwise, a very large drop in the voltage would occur.

Under Clause VI of the Schedule to the Indian Electricity Act, 1910, the Company is bound to supply energy within one month from the making of a requisition, unless the Electric Inspector's permission is obtained to a longer period, in accordance with the fourth proviso to the Clause in question. As no reference was made to the Electric Inspector, it is incumbent upon the Supply Company to strengthen the mains and give supply immediately; otherwise action can be taken against them under Section 42 of the Indian Electricity Act.

I, therefore, suggest that you call upon the Company to give the necessary supply as laid down in Clause VI of the Schedule to the Act.

Yours sincerely,

Below U.O.R.No.J-59/27 dated the 27th July 1942, from Government in the Public Works Department.

No. ADRm II/1413 of 1942.

Bombay, 29th July 1942.

To
Messrs.Amte & Company,
Managing Agents,
The Hubli Electric Supply Co.Ltd.,
HUBLI.

Gentlemen,

We have the pleasure to inform you that we intend putting up a saw bench in our depot in Keshwapur. We, therefore, request you to kindly supply us Electricity for the same at an early date as we have urgent contracts of supplying sawn timber to the Defence Department. Regards the contracts we have got of supplying sawn timber to the Defence Department, we humbly request the Divisionsal Forest Officer Eastern Division, Kanara, to certify to the effect, which we hope will be sufficient reason for the supply of the Electricity.

Thanking you, we remain, Gentlemen,

Yours truly,
Sd.
For L.D.Narvekar & Sons.

Submitted through the Divisional Forest Officer, Eastern Division, Kanara, for favour of recommendation and oblige.

Urgent please

No.G/1280 of 1942.43.
Via Dharwar, 4th June 1942

Forwarded.

2. The applicant's request is recommended in view of the fact that they have undertaken many war supply works, of which the supply of 1000 M.G.Sleepers by the end of this month has a priority demand from the Defence Department.

Director of Industries, Bombay.

To

The Secretary to Government,
Public Works Department,
Bombay.

Subject:- Supply of electric power to the S.D. Industrial Co-operative Association Ltd., Hubli.

Sir,

I have the honour to refer to the Government Memorandum, Public Works Department, No.S.59/27/218-El, dated the 12th instant, on the above subject, and to state that the finishing plant for which electric connection is required is the property of the Government of Bombay. It has been put up specifically for treating blankets for which an order has been placed by the Supply Department, New Delhi. Several hundreds of blankets are now ready for finishing and unless steps are taken to run the plant immediately delivery periods will be delayed. In view of this it is suggested that the formality

of obtaining the essentiality certificate from the Directorate General of Supply, New Delhi, may be waived in this case. As stated previously the plant is the property of Government and has been put up specifically for the execution of the War orders of Army blankets. I shall be grateful for very early orders of Government in the matter.

No.S.59/27/287-E1.
Public Work. Department.
Bombay Castle, 22nd June 1942.

Memorandum.

Subject:-Supply of electric power to the S.D. Industrial Co-operative Association,Ltd., Hubli.

With reference to his letter No.W.392-D/322,dated the 19th June 1942, on the subject mentioned above the Director of Industries is informed,with compliments,that even in the case of urgent military requirements in accordance with the instructions of the Government of India permission to supply electric energy cannot be granted without a certificate of essentiality of the supply required from the appropriate authority. As the electric supply required by the S.D.Industrial Co_operative Association, Limited,Hubli,is required for the execution of war orders there should be no difficulty in obtaining the necessary certificate of essentiality from the Directorate General of Supply, Shahjehan Road,New Delhi and in fact had immediate steps to obtain this been taken it should have been to hand now. The requisite orders will be passed on receipt of the certificate in question, that the plant belongs to Government does not affect the case.

By order of the Governor of Bombay,

Deputy Secretary to the Government of Bombay,Public Works Department.

IMMEDIATE.

No.W.392-D/322
Office of the Director of Industries,
Old Custom House Yard,
Bombay, 19th June, 1942.

From

P.B. Advani, Esquire, M.Sc. Tech., M.I.E., J.P.,
Director of Industries, Bombay.

To

The Secretary to Government,
Public Works Department, Bombay.

Subject:- Supply of electric power to the S.D. Industrial Co-operative Association Ltd., Hubli.

Sir,

I have the honour to refer to the Government Memorandum, Public Works Department, No.S.59/27/218-El, dated the 12th instant, on the above subject, and to state that the finishing plant for which electric connection is required is the property of the Government of Bombay. It has been put up specifically for treating blankets for which an order has been placed by the Supply Department, New Delhi. Several hundreds of blankets are now ready for finishing and unless steps are taken to run the plant immediately delivery periods will be delayed. In view of this it is suggested that the formality

P.T.O.

of obtaining the essentiality certificate from the Directorate General of Supply, New Delhi, may be waived in this case. As stated previously the plant is the property of Government and has been put up specifically for the execution of the War orders of Army blankets. I shall be grateful for every early orders of Government in the matter.

Your obedient servant,

Sd/- P.B. Advani.

Director of Industries.

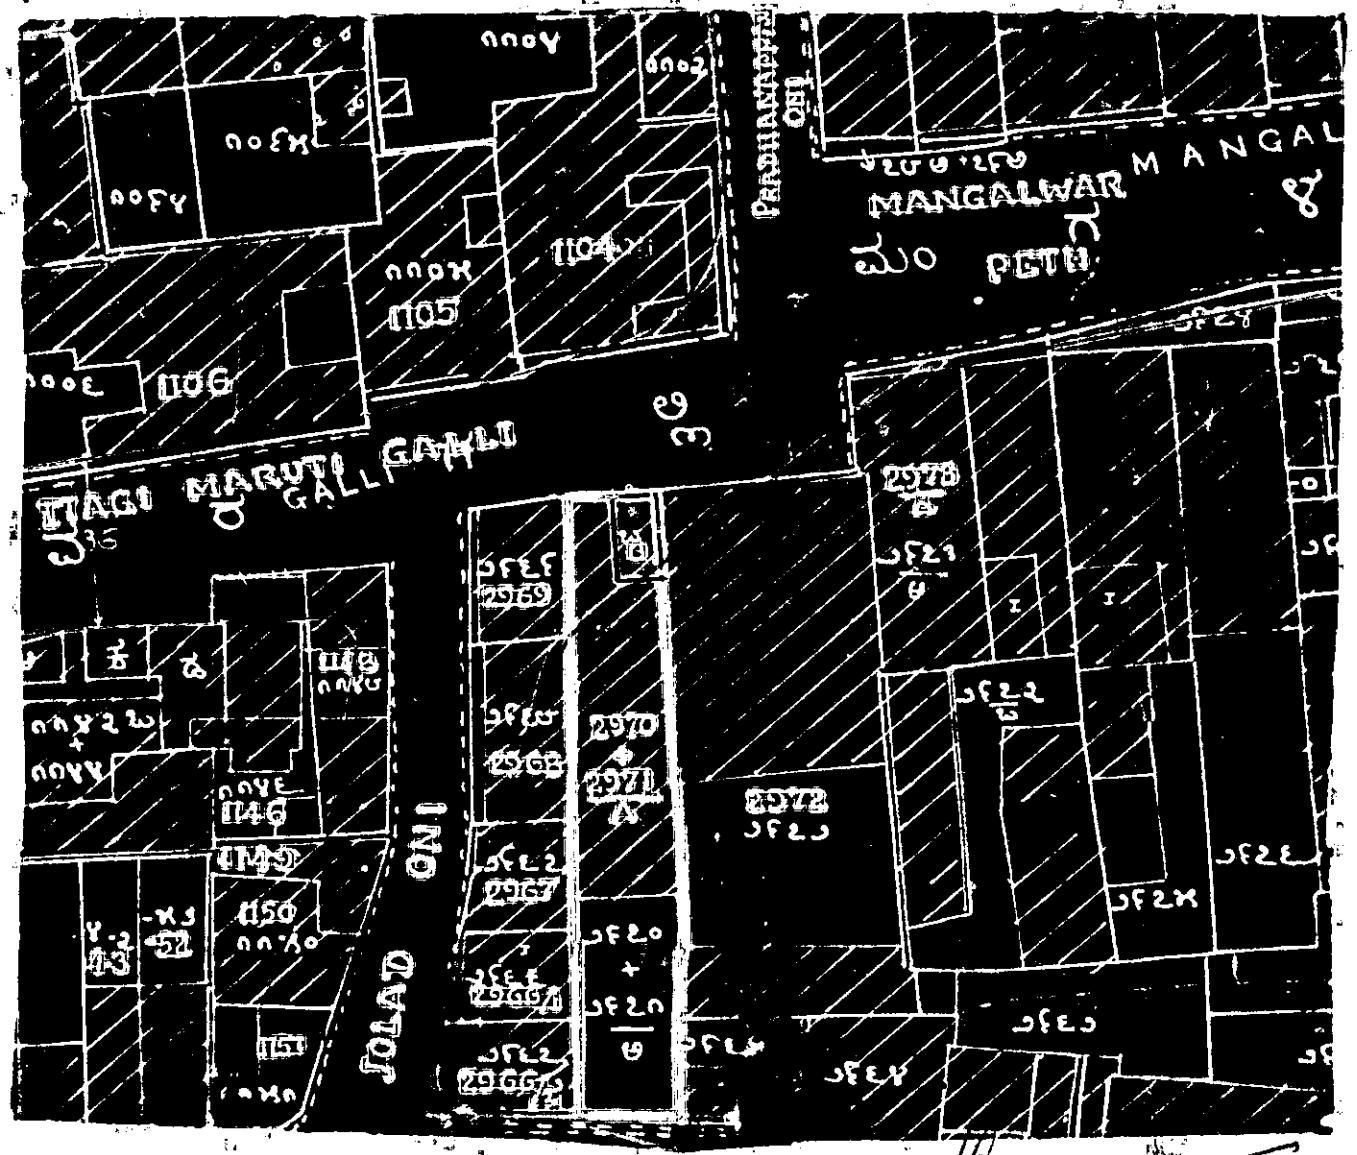
Portion in which Flour-Mill is situated .... verged Blue.



Hubli.
Date 11-5-1943.

Special Land Acquisition Officer, Hubl

Copy of letter No.H.C.41 dated 30th April 43 from the Hubli Electricity Company,limited, to the S.L.A.O. Hubli.

" With reference to your letter No.L.A.Q.R.W.M/258 of 29th inst., regarding giving supply for power to Mr.Mahadevapa Rudrapur at a new place, whe give below for your information extracts of Government orders ó in that behalf..

1. The Hubli Electricity Co.Ltd. shall not enter into any fresh contract or agreement with any person for a supply or an increase in the supply of electrical energy, if the - - fulfilment of such contract or agreement requires the - - provision of any service wires, cables or connections not already installed". If a proposal for any such contract or agreement as aforesaid is made to the company and it is - estimated that the present or prospective total maximum demand to be provided does not exceed 50 K.W., the company shall for -ward it to the Secretary to the Government of Bombay, (Public Works Department) who may in his dicretion grant or refuse permission to fulfil or enter into (as the case may be) the contract or agreement.

9 11 2. "complete re-wiring of installations or renewals should not be undertaken. Only essential repairs should be carried out ".

3. The question has been raised by one Electic Supply undertaking whether under the control orders it is permissible for the undertaking to grant the supply of electrical energy at a new place provided this is in substitution of supply at another place and no extra wires or other electrical equipment is required. The Government of India do not see any objection to the grant of supply in such cases provided that the supply undertaking is satisfied that no new electrical equipment has been obtained and all such cases should be separately - - reported to the control authority".

P.T.O.

4. " All the cases of the nature referred to therein (para 2 above) should be reported to the Deputy Secretary to the Government of Bombay, Public Works Department, Bombay, with details regarding the old and the new place and purpose of the supply".

/5. It will please be seen from the above that even in the case of the shifting of the position of an existing installation, the complete re-wiring and the installing of some new electrical equipment like wires that are necessarily involved shall have to be approved by the Government before such work can be undertaken and the supply given thereto".

The Deputy Secretary,
to the Government of Bombay,
Public Works Department,
Bombay.

Sir,

I Mahadevappa Veerappa Rudrapur beg to bring to your Hounour's notice the following few lines and request your honour to please give a sympathetic consideration to it.

I have a flour-mill in the front part of my building bearing C.T.S.No.2970-71 in sheet No.92 at Hubli in Mangalwar Peth since last 4 years and is being worked on electric energy supplied to me by the Hubli Electric Co. from the pole No.P.H.141.The front portion of this property has been proposed to be acquired for Road Widening and has been accordingly notified for acquisition under section 4 and 6 of Land Acquisition Act under G.N.R.D.No.2998/39 dated 25th July 1941 and 25th September 1941 respectively. I have been accordingly served with Notices under section 9 & 10 of L.A.Act and I am informed that the award under section 11 will be declared soon and the possession of the property taken within a month's time. As a consequence to this I will have to shift the Electric Motor and other machinary in the rear portion of my property and also extend the connections either by putting new necessary wirings or by substituting the whole wiring a new.For this purpose I approached the Hubli Electric Co.,and I was advised to approach your Honour since the work to be done require your Honours permit before they would undertake the work.

I may also here add that this Flour-Mill is the only source of the income to maintain myself and my family and if such a permission is not granted to me it will be a great hardship to me and also entail a permanent loss of my business.

I therefore beg to request your Honour to please give a sympathetic consideration to the above facts and request your Honour to please issue me a permit for carrying out the new required work just sufficient to allow the Flour-Mill in the new shifted place.

My Address:-
M.V.Rudrapur
Adki-Oni,
Hubli.

I beg to remain,
Sir,
Your most obedient servant,
ಮಹಾದೇವಪ್ಪ ವೀರಪ್ಪ ರುದ್ರಾಪುರ

Submitted through

(1) The Collector of Dharwar.
(2) The Special Land Acquisition Officer, Hubli.

MAY 12 1943

No.L.A.Q.R.W.M/ 2-94
Special Land Acquisition Officer,
Hubli, 10th May 1943.

Submitted to the Collector of Dharwar.

2. The applicant is a claimant-owner of C.T.S. Nos.2970-71 of sheet No. 92 in Mangalwar-Peth which has been proposed to be acquired for road widening under Government Notificatio

No. referred to above in his application. There is a Flour Mill worked on Electric energy in the front portion of this C.T.S. No i.e. within the land ~~land~~ to be acquired and will have therefore to be shifted in the rear to the south beyond the land to be acquired and there will be a change accordingly in the Electric fittings for which I was told that Government permission will be necessary. I therefore referred the matter to the Hubli Electricity ~~Limited~~ Company, Limited and I enclose herewith a copy of the Electric Company's letter No. H.C.41 dated 30th April 1943 for favour of perusal. It will be seen therefrom that the work that has to be undertaken by the owner for shifting the Flour Mill to a new place though in the same premises will require such a permission since it would involve re-wiring, renewals and additional wiring etc. amounting to Rs275/-approximately as per the estimates of the Electricity Co.

It is further submitted that if the required permit is not granted the Acquiring Body will have to pay heavily for this property since the owner shall have to be paid for the loss of his business in addition to the value of the property acquired or as an alternative the Municipality will have to postpone the pulling down of the structure acquired after taking over the possession and allow the owner to work his Mill in the same place by leasing out the portion acquired to him and to wait till the apportune time when the owner could conveniently shift the Flour Mill without such a permit. This in my opinion is not desirable since this would mean allowing a single property to remain protruding in the road when all the adjoining acquired properties have been pulled down and land amalgamated with the road. This would therefore be a sort of obstacle in the way of the Municipality who have been all along very keen on making the ~~the~~ immediate improvements to the widened roads etc. and would thus frustrate this object at-least some time to come.

In the circumstances mentioned above I would request the Collector to please move the Government to issue a necessary permit as a special case to the claimant owner so as to allow him to shift the Flour Mill to a new place beyond the land acquired as applied for by him.

~~A sketch plan showing the property is enclosed herewith~~ for ready reference.

Special Land Acquisition Officer,
Hubli.

D.C. branch.
This is regarding grant of permission to shift the flour mill from the present place which is under acquisition at Hubli to another place. So please deal further in the matter.

Bombay.

Sir,

Mr.K.G.Parekh, C/O.Messrs.K.Parekh & Co., Lokhande Building, Durgadbail, Hubli, has applied to us for shifting the position of the watt-hour meter installed at his residential premises in Itgi Hanumantadevar Oni, Hubli, as the portion of the building where the meter is now installed has been acquired for the Municipality and is to be demolished. We find, however that in order to carry out that work, it will be necessary to extend the service line by using the following new service materials which may cost about Re.1/-.:

V.I.R.wire, 1/18.	.6 feet
G.I.Wire No.10.	.3 "
Real Insulators	.1 pair
Black cotton tape	.1 foot.

As per Memorandum No.A.855 dated 20/1/43 issued by the Central Electric Power Control Board, we consider that no such materials can be used without the previous sanction of the Govt.

We therefore request you that requisite permit may please be issued for extension of the service in question accordingly. All the required materials can be supplied from our stock. No increase to the existing connected load of .18 K.W. is intended to be made.

As none of the forms prescribed by the Government appear to apply for giving particulars of the case of the above type, we are submitting this application without recourse to any of them.

Yours faithfully,
For The Hubli Electricity Co. Ltd.,
Managing Agents.

El. Br. P.W.D.

Submitted.

2. The letter overleaf applies for permission to shift a watt-hour meter from one part of a building to another, as the former part has been acquired for the Municipality and is to be demolished. Little material is reqd., and the permission is accordingly asked for with regard to G.G.I. Memorandum No. A855 d/ the 20-1-43. The existing load viz. 18=K.W. and the name and address of the consumer, have been stated in the letter overleaf. Unless it is considered necy. to ask the consumer to furnish evidence in support of this statement that a part of his premises has been acquired for the Municipality, the reqd. permission may perhaps be granted.

3. The necy. draft reply will be put up on receipt of orders.

Asst. 3-12-43. The shifting may be approved, the cost being Rs 1 only. ✓ A.S.

the control of the undertaking under the Defence of India Rules.

3. The Ely control order served on the Hubli Ely Coy. Ltd, is no longer applicable to the undertaking. vide in this connection proceedings in file no 5260/36/17339 last ub.

4. It is not known whether the Assn is still receiving the supply of energy from the Hubli Ely undertaking. If it is receiving the supply the question is whether there is any need to discontinue the supply, because the Director of General is no longer interested in it. From the proceedings in file S.57/27 last ub below it will be seen that this Govt was also interested in the supply to the Assn.

Subs A ub 26-5-45

5 Apart from the fact whether the supply to the Assn is or is not necessary in the interest of Govt it would perhaps be inadvisable to discontinue the supply in the present circumstances.

6. The El. Engr to Govt may see these papers n.o. for remarks & he may be requested to state whether the Assn is still being given the supply.

Sir,

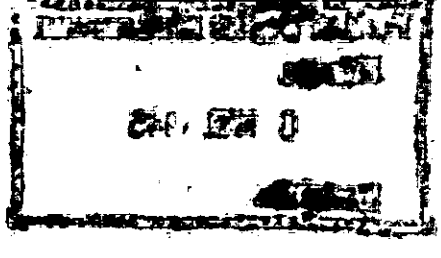
Re: Sanction for reconnecting a Service.

We beg to inform you that the service of Mr. S.V.Patil was disconnected in May 1943. The consumer was running a flour mill with the installation of 10 B.H.P. Electric Motor. The consumer has now applied for reconnection. For reconnecting the service no extra materials are required.

We, therefore, request you to kindly advise us whether it is permissible to reconnect the above service at your earliest.



Yours Faithfully,
For the Nipani Electricity Company Ltd.
